FYI,

IN the future, before we schedule any community meetings for the San Jacinto Site, we need to brief Carl and get his OK.

This is a very high visibility site and we need to be very careful on all activites related to this site. CAS

Donn,

We are not ready for this meeting in February. I thought we were going to wait until March when we had the sediment results.

We just met with Carl and Pam and they do not want to have the meeting in February. CAS
